

Billing & Delivery.

School Billing.

School billing is available for any of our teaching programmes.

As ever, we aim to keep everything simple and transparent.

- **One** central contract that is signed by the school or academy trust for a specified number of teaching hours.

- **One** central invoice that is issued to the school or academy trust each term, covering all of the teaching carried out under the contract that term.

Parent Billing.

Parents can be billed directly by Learning Music on some programmes. This is the default setup for our out-of-hours Music Academy programme, and is also available in-school for Small Group/1-to-1 Instrumental Lessons.

Different arrangements can be put in place for lower income families.

- **One** overarching contract signed by the school or academy trust that permits Learning Music to enter into individual contracts with parents.

- **Individual** invoices being issued to parents, with direct debit payments either termly or monthly. This allows parents the opportunity to structure their payments to suit their finances.
